Bengaluru, India

github.com/SagarUlli

SKILLS

- Languages: Java, SQL
- Backend Frameworks: Spring Boot, Spring MVC, Spring Data JPA
- APIs & Architecture: RESTful APIs, MVC Architecture, Microservices (Basics)
- Databases: MySQL, JDBC
- Core Concepts: OOP, Collections, Exception Handling, Multithreading, JVM Basics
- Tools & Platforms: Git, GitHub, Bitbucket, Postman, Swagger

EDUCATION

**Bachelor of Engineering
(Computer Science)**

Atria Institute Of Technology |
2020 - 2024
CGPA: 7.5/10

CERTIFICATES

- Java Developer Trainee
- Java Full Stack Development - JSpiders, Rajajinagar

SUMMARY

Java Backend Developer with hands-on experience designing and building RESTful APIs, payment integrations, and backend services using Java, Spring Boot, and MySQL. Strong foundation in OOP, MVC architecture, and microservices basics, with real-world exposure to Stripe and Razorpay payment workflows. Actively seeking backend-focused roles where scalability, clean code, and system design matter.

INTERNSHIP

Backend Developer Intern — HulkHire Tech
Aug 2025 – Oct 2025 | Remote

- Built a Stripe-based payment processing system using Spring Boot, handling request validation, transaction processing, and webhook-driven status updates.
- Designed a modular microservices architecture with validation, processing, and payment workflow services.
- Implemented secure webhook validation, asynchronous event handling, and real-time transaction status updates.
- Developed REST APIs, tested using Postman, and documented endpoints with Swagger.
- Used MySQL for transaction persistence and service coordination.

Tech Stack: Java · Spring Boot · MySQL · Stripe · REST APIs

PROJECTS

JSPGram – Social Media Backend System
Spring Boot · MySQL · REST APIs

- Designed RESTful APIs for core backend services using Spring Boot following MVC architecture.
- Implemented email OTP authentication, user profile management, and media uploads using Cloudinary.
- Developed post CRUD functionality and a followers/following system for personalized feeds.
- Integrated Razorpay payment gateway to support premium memberships.
- Built the application backend using Spring Boot with database persistence via MySQL.

Tech Stack: Java, Spring Boot, Spring Data JPA, MySQL, REST APIs, Razorpay, Cloudinary

LANGUAGES

- English, Hindi, Kannada
