Bengaluru, India

github.com/SagarUlli

## SKILLS

### Programming Languages:

Java, SQL

### Frameworks & Libraries:

Spring Boot, Spring MVC, Spring Data JPA, Spring AOP, Hibernate

### Architecture & APIs:

Microservices Architecture, RESTful APIs, MVC Architecture

### Databases:

MySQL, Database Design, JDBC

### Tools & DevOps:

Git, GitHub, Maven, Postman, Swagger

### IDEs:

Eclipse

## EDUCATION

### Bachelor of Engineering (Computer Science)

Atria Institute Of Technology |

2020 - 2024

CGPA: 7.5/10

## CERTIFICATES

- Java Developer Trainee

## SUMMARY

Java backend developer with hands-on experience building **RESTful APIs, payment processing systems, and scalable backend services** using Spring Boot and MySQL. Solid foundation in **OOP, MVC, and microservices architecture**, with real-world exposure to **Stripe and Razorpay workflows**. Passionate about **developing clean, efficient, and maintainable backend solutions** for production-ready systems.

## INTERNSHIP

### Backend Developer Intern — HulkHire Tech

Aug 2025 – Oct 2025 | Remote

- Built a **Stripe-based payment processing system** with request validation, transaction handling, and webhook-driven status updates.
- Designed a **modular microservices architecture** for payment workflows, including validation and processing services.
- Implemented **secure webhook validation**, asynchronous event handling, and **real-time transaction status updates**.
- Developed and documented **REST APIs** using Swagger; tested endpoints with Postman.
- Managed **transaction persistence and service coordination** using MySQL.

**Tech Stack:** Java · Spring Boot · MySQL · Stripe · Microservices · REST APIs · Swagger · Postman

## PROJECTS

### JSPGram – Social Media Backend System

Spring Boot · MySQL · REST APIs

- Designed **RESTful APIs** for core backend services following MVC architecture.
- Implemented **email OTP authentication**, user profile management, and **media uploads via Cloudinary**.
- Developed **post CRUD operations** and a **followers/following system** for personalized feeds.
- Integrated **Razorpay payment gateway** to support premium memberships.
- Managed **database persistence and backend logic** using MySQL and Spring Data JPA.

**Tech Stack:** Java · Spring Boot · Spring Data JPA · MySQL · REST APIs · Razorpay · Cloudinary
